

The beauty and utility of a wall mounted flat-screen TV is even more enhanced with the INCA fully automatic and remote controlled wall mount system. At the press of a button, you can

bring your TV out from the wall and rotate it to the most desired viewing position. With the touch of a button, you can also initiate automatic commands that reverse motions, from any position, to bring the flat-screen back to the wall.

These systems are fast and easy to install. They are designed for any size flat panel TV that weighs up to 100 pounds. Optional mounts are available to frame your TV on the wall.

Motorized Wall Mounted Pullout and Swivel
P/N 900810-5AW-PSF (Flush mount)
900810-5AW-PSR (Recessed mount)
